

Communicate™

Low cost IP solution to your Bank.

One of the biggest challenges facing retailers today is the ability to leverage technology advancements to deliver an enhanced and cost effective service to their customers.

Leave a positive impression
with your customers!

Store communications is a critical component in any retailing environment. A customer's lasting impression can be positively impacted by having their sale quickly and efficiently processed at the checkout.

Communicate™ allows retailers to safely and cost effectively leverage the speed of the internet to process transactions at their point of sale using an existing broadband connection.

Features

- *Fast transaction processing speeds.*
- *Full transaction encryption ensures security.*
- *Works with any broadband internet connection.*
- *Quest monitored upstream links to your acquiring bank.*
- *Seamless integration with your integrated EFTPOS environment.*
- *Choice of transaction acquirers.*

Benefits

- *Low cost IP communication solution.*
- *Fixed cost charging model delivers predictable costs for your business.*
- *Enhanced customer experience at the checkout.*
- *A scalable communications solution as your business grows.*
- *No additional communications infrastructure to maintain.*

About Quest

Quest is a leading provider of payment systems to many of Australia's major retail brands. Our IP solutions process millions of transactions each year and deliver mission critical communications to retailers across the country.

For over 20 years Quest has provided payment solutions to the retail industry. We welcome the opportunity to do the same for you.
