

Donation Point[™]
SK100 KIOSK

Donation Point[™]
PRODUCT RANGE

Fundraising for Charities. Anytime, Anywhere!

Donation Point Kiosk · An on-site self-serve kiosk solution that makes it easy for your charity to collect donations directly from your supporters. It helps you save time in managing volunteer networks, and reduces the cost of commissions paid to third party collectors, maximising donation revenues.

Fully wireless using mobile broadband or WiFi, Donation Point Kiosk can be commissioned quickly wherever mains power is available. Its personalised touchscreen display can incorporate your charity's branding and donation options. Supporters can donate in just a few steps using their magnetic stripe, chip or contactless debit or credit card. Receipts are issued electronically by email or SMS link, eliminating the need for printers and paper rolls.

If required, Donation Point Kiosk can be configured to collect information about your supporters, allowing you to engage them with ongoing communication and news.

Quest manages the branding process of your kiosk within your guidelines to ensure that you receive the best visual impact results.

“ The Donation Point Kiosk has a real presence in our foyer and has generated increased interest and awareness of our Foundation ”

Catherine Oates Smith, CEO 'The Royal Hospital for Women Foundation'

Donation Point Kiosk

'The Royal Hospital for Women Foundation', Sydney Australia

Configured to accept One-off Donations, Donations via purchase of a memorial plaque & allows for people to subscribe to News feeds.

BENEFITS TO CHARITIES

- Reduction in cash collection and management costs compared to traditional volunteer-led fundraising
- Makes it easy for supporters to donate without the need for cash through card acceptance
- Direct engagement with supporters eliminates third party donation collection costs
- Customised decals and branding to attract supporters. Display your charity campaigns, achievements and aspirations on-screen
- Can provide the ability for supporters to electronically opt-in using their email address for further communications about your charity
- 'Quick Donate' feature allows a card to be tapped without touchscreen interaction
- Can support donations for multiple charities in a single location
- Kiosk design enables it to be moved between targeted high traffic areas to maximise supporter yield

You can also further personalise your Donation Point Kiosk by integrating features specific to your charity such as Loyalty cards, or the use of external screens to provide larger displays that can interact with your kiosk.

CUSTOMISE YOUR KIOSK!

Quest can provide software to run on your Donation Point Kiosk, or you can choose to develop your own Kiosk application using the Quest SDK. Quest's open software platform has been designed to allow for future development as your charity evolves.
