MOBILE

Donation PointTM
PRODUCT RANGE

Accept Donations, anytime, anywhere!

Donation Point Mobile is a cashless fundraising product designed for 'mobile' charity events such as street appeals, fun runs, sporting events, charity auctions and gala dinners.

Fundraisers simply download the app to their smart phone and connect the small card reader via Bluetooth.

Fundraisers now have the ability to accept donations or sell product using the app and the Bluetooth card reader.

KEY FEATURES

- Accepts all credit and debit cards. • Lightweight and mobile. • Safe & secure transactions.
- Preset amounts can be configured for common donation values or when selling charity goods such as badges, pens, magazines etc, taking the transaction faster.
- Centralised real time reporting allows fundraising teams to track progress intra-day and allows charities to remotely oversee their fundraising teams.
- All donation amounts are deposited into the charities account directly at the end of each day.
- Send digital receipts to donors via SMS or email if taking high value donations and when receipts are requested.

ONLINE PORTAL

The Donation Point Mobile portal allows charities to oversee their fundraising teams' analytics in real-time, allowing for effective campaign updates and management.

Donation Point Mobile makes fundraising simple, fast and effective, saving time and resources from counting cash and preparing reports post appeal
